NEW HAVEN, CONN., June 8. mpt of Father Byron to compel Cathoa to have the medical services only of
the capital declaration of the model of the capital services only of
the almost lifeless form of his wife.

Abeleven o'clock Cartain Holmes of Life Ansonia is excited over the alleged at-Dr. Conkling. A parishioner employed a protestant doctor for his sick wife. She fill not improve and it was feared would lie. Father Byron was sent for, but refused to attend, because Dr. Conkling had not been employed. The woman is now recovering. Last Sunday morning Dr. Conkling went to Father Bradley with a letter of introduction. Father Bradley was also lost, but the mother was saved. The result was fill, and the doctor handed the letter to Father Daley, his assistant, asking him to anneares at first mass that Dr. ill, and the doctor handed the letter to Father Daley, his assistant, asking him to annoance at first mass that Dr. Conkling was coming among them to practice medicine, and to give him introduction to the people. Father Daley did so. Father Byron at the next two masses made announcement to the effect that he was giait that a young Catholic doctor had come among them, and they would no longer be obliged to have recourse to the heretical marderers. He announced that he would not attend any wotnam who did not employ Dr. Conkling. Father Brady and other prominent Catholics denounce the action of Father Byron. The matter will be brought before the Bisheje in the production of gold was greater in California than in any other State or Territory, the yield before States for the year 1882.

The yield of the mines of the United States for the year 1882 was £32,500,000 in gold and \$46,800,000 in silver. Compared with the previous year, this shows a decline of \$2,300,000 gold and affine in California than in any other State or Territory.

CHATTANGORS, There, June 6.

A few months since, Robert Lee, of Coles Insveille, Aia, removed to a hands in the falling off in the production of the quartz about one hundred inhabitants. Through the influence of trivinds he was appointed Postmaster, and wrote to the Department that it was a large and growing town and made application for \$200 in stamps, which were sent him. Since that time he has received \$2,000 in stamps, as his capital, which he sold at a discount. He had dispossed of nearly \$1,500 worth and last week made application for \$500 more. The pentoffice became suspicious and Postoffice Inspector Frey, of Atlanta, to day detected the swindle and arrested Lee. He was put under heavy bond and is now in jail. He bought a \$100 gold watch in this effly to-day and paid for it in stamps. He altogether distributed nearly \$1,500 worth of stamps in the limits and assay offices the manufacturers, \$350,000 by private refluction, \$15,750,000 was exported, \$5,904,000 far nished by mints and assay offices to manufacturers, \$350,000 by private refluction of the same purpose, and \$24,700,000 used in toinage. During the year there was a greater decline in the amount deposited at the lands and assay offices that he allogether distributed nearly \$100 worth of stamps in the content of the same purpose, and \$24,700,000 used in the same purpose, and \$24,700,000 used in greater decline in the amount deposited at the lands and assay offices than the difference between gold production of 1881 and 1882, but there was a larger amount of several lands of the content of the same purpose. CHATTANGORS, TRAM, June 9.

The amount of silver deposit ed at the mints and away offices increases about \$3,500,000, which corresponds close by to the increased production of the year.

#### One of Guitean's Jurors Goes Crazy. WASHINGTON, June 6.

The Guiteau case will never down good. It has come into prominence again owing to the fact that P. J. Shealty, one of the jutors, has gone crazy and been sent in the St. Elizabeth Hospital for the Insane. The case is poculiarly pathetic in some points. It is reported that Sheahy believed that Guiteau was insane and that the jury should have so found, but he had not the courage in face of the manufacture. of the unanimity of the rest, to stand out are say so. He was also afraid, it seems, of what he knew was the public clamor on the subject. Since Guiteau's execution it said be has been continually baunted by a flection upon the case, and the conviction that he had voted to hang a bundle, until h

mind had given way under it. His insanity took a ferree turn, so that his family wers afmid for their lives, and he has been placed in a celf at the asylum. Addison Gardner, the first Justice of the Peace of Rechester, N. Y., and Lieutemunt Governor under Governor Wright, dted in that elly Tuesday, agod eighty-six.

The paim for speed in this coercited by the two components of the sa

When the stick has become perfectly pliable the workman places it in one of the notches, and bending it in the opposite direction to which it is naturally bent, straightens it. Thus, sticks apparently crooked, bent, warped and worthless are by this simple process straightened; but the most curious part of the work is observed in the formation of the crook or curl for the landless which are not raturally supplied with the control of the gain in the peak or know. The workman is an appearance of the gain in the speech. Exceptional runs have been made on nearly every railway in the story of the work is observed in the formation of the crook or curl for the landless which are not raturally supplied with the story of and gradually round until the hook is completely formed, and then secured with a string. An additional application of heat serves to bake and permanently fix the corl. The under part of the handle is frequently charred by the action of the gas, and this is rubbed down with annuary until the round. the handle is frequently charred by the action of the gas, and this is rubbed down with sandpaper until the requisite degree of smoothness is attained.— The Critic recently heard an excel-ent story about Judge Jere. Black, the distinguished lawyer and politiciau, and Dr. William Elder, also a prominent Pennsylvanian and now an official in the

set, Pa., and were friends from early bryhood. Both were excellent story-tellers, and both had a wealth of stories tellers, and both had a wealth of stories of their early life.

Black was particularly proud of a description of the way in which he first read then Quixete, and was found of relating it whenever an appreciative audience could be scentred. The story was that in his father's garret at Somerset there stood an old hair trunk in the sarliest days of the ambryo Judgo's career, when his young mind had just begun to feel the want of more varied literary resources than the standard, dog-sared volumes of his father's limited library afforded. Jere, was investigating the garret one rainy day for Old Volumes."
